

SAME PRICE POLICY

Woodland Mills is committed to offering all customers the same factory direct product pricing. We have set our factory direct pricing at the best possible price while still allowing us to offer a strong product warranty and exceptional customer service. The same product price is offered to every customer who purchases under the same conditions. Whether you purchase from us through our website or over the phone, you will receive the same pricing.

Our same price policy also means that prices are set and cannot be negotiated. You pay the same price that your neighbour pays.
